ASP CZECH s.r.o. manufacturing process is managed by HACCP system and ISO 9001 quality management system.

Products are manufactured from the first-class raw materials fit for human consumption and are approved by the Ministry of Health of the Czech Republic.

Introduction

ASP CZECH s.r.o. is the Czech continuously growing company, which has persistently been looking for new possibilities to extend its business activities and has been penetrating into new foodstuff industry segments. We developed new range of products – Milk Powder Blends and Fat Filled Milk Powders under brand name LACTIS MILK and LACTIN MILK.

These products are manufactured from exceptional quality materials – dairy and non-dairy ingredients as a cost saving alternatives for pure milk powder with very extensive applications.

Our very last novelties are yoghurt powered drink and ice cream blends of supreme quality. Ice cream blends are manufactured under Italian formula and also many original Italian ingredients are used in manufacturing process.
